The City That Finds Budd

To the Citizens of Berlin:

My second year as Mayor of the City of Berlin has been a very busy one. I have been very active in the City Council, and I have been very active in the City Manager Joseph P. Burke in June. May I say that I am very grateful to you for the opportunity you have given me to be a part of the tremendous cooperation extended to me by the members of the City Council and the City Manager. I would be remiss if I did not also express my appreciation to Mr. Burke for his advice and consultations before his departure from Berlin.

My five month term as "full time Mayor" came to an end in October when the City Council appointed Mr. James G. Smith as Mayor. I am very grateful to the City Council for the honor and for a short time, the City Council and I feel confident that through his able management and with the continued cooperation of everyone, the City will move ahead with renewed vigor.

The Industrial Development Committee has made great strides in the past year. The committee has been very active in securing valuable buildings owned by the City are occupied with new industrial buildings. This must be undertaken as soon as possible. The City of Berlin is particularly grateful to Mr. Robert Theriault, Chairman of the Industrial Development Committee for his advice and assistance. The committee has been very active in seeking out and developing new industrial prospects.

We were fortunate to be able to decrease the tax rate in 1973 by two dollars. Every effort will continue to be made to hold the line on taxes in the future in spite of increasing demand for services and the spiraling inflation now taking place.

In the field of recreation, we expect that the Jericho Lake Recreation Project will be completed in the early summer of 1974.

Major improvements at the Airport have already begun and will continue in the near future. Our airport will be one of the best in the North Country and we anticipate that the airport will be a major asset to the City. We are also planning to develop a new terminal building, a full time mechanic-fixed base operator, stalled pumps and tanks and a full time mechanic-fixed base operator.

The City has selected the engineering firm of Anderson-Nichols to design its sewer plant and many hours will be spent in the next year to get this project ready for construction.

The accomplishments of the past year can be attributed to the cooperation and assistance of the City Council and the City Manager. Continuation of the sincere concern you have demonstrated will allow us to achieve the goals we have set for the future.

Very truly yours,

Sylvio Cortese
Sylvio J. Cortese
Mayor

Accomplishments

Mayor worked very closely with Governor Thomson, our Congressmen and Senators in concentrated efforts to obtain State and Federal funds.

The Mayor worked closely with the Board of Water Commissioners to apply for an E.D.A. Grant for the construction of a New Water Filtration Plant.

Worked for and supported Mental Health Clinic, Holiday Center, Berlin Help, North Country Community Services, Head Start and Senior Citizens.

Supported and financed Child Benefit Service and shared facilities.

Worked closely with the Board of Police Commissioner to improve our ambulance service. Anderson-Nichols was hired to design final plan for Water Pollution Treatment Plant.

Mayor and City Council award contract for the construction of Basic Recreational Facilities at Dead River Watershed, Site No. 1, access road to be constructed by the city.

Construction of the Twelfth Street Bridge is underway and to be completed next August.

Receive a grant for the Airport from E.D.A. and started a major improvement at the airport.

Three new industries established in Berlin: PLASTIC STRUCTURAL, INC., BERLIN SPORTSWEAR, ECHO ELECTRONIC.

EMCA announce an expansion after City Council agreed to sell small city building.

Mayor and Council approved the buying of Notre Dame High School in order to eliminate school crowding problem.

BERLIN

NEW HAMPSHIRE 03570
The City That Treas Birth

To the Honorable Mayor, Members of Council
and Residents of the City of Berlin:

It is my pleasure to submit the 1973 Annual Report on the operation of our municipal government. The report is again presented in the form of a calendar. This format has been well received in the community, and in addition has brought recognition to Berlin through the receipt of several awards. I, Mr. Maurice Belanger who worked hard to assemble the report and all of my staff hope that it serves not only to inform you of the many accomplishments of the City of Berlin, but also to inform you of the needs and desires of our citizens throughout the coming year so that you may attend and share with us your ideas, your desires, and your needs. Citizen input is the prime requisite of a responsive city government.

Having served as your City Manager for only a few months, I can not bring an historical perspective to an assessment of the past year, however, I can contribute the ability to compare. Comparing Berlin to other communities, I see many accomplishments to be proud of and the foundations laid for many future achievements.

Nineteen Hundred and seventy-three was an important year for our community and expanded into many new areas. Three of our existing industries announced major expansion programs. This new industrial development and expansion should result directly in the creation of nearly one hundred new job opportunities and indirectly in the creation of additional new jobs to provide materials and services to the new and expanding industry. One of the new companies is scheduled to be the first tenant of the City's Industrial Park. The Public Works Department and the Water Authority will install utilities at the park in the Spring of 1974 to serve the new building.

Contracts were let out and work began this past winter on the new Jericho Lake Recreation Project. This facility is a result of a joint effort between the City Public Works Department and the U.S. Soil Conservation Service. It will substantially increase year round recreational opportunities for the community, and it is located in town, making it more convenient, saving travel time and saving fuel, important considerations in this time of energy shortages.

Work was begun this past year on the new Twelfth Street bridge. The new bridge is a cooperative funding effort between the City and the State of New Hampshire. The bridge is designed to serve the needs of the Bridge Street bridge, to provide a more direct route for traffic, and to serve as well as to the City's new Industrial Park. Heavy truck traffic, which now clogs downtown streets can be rerouted and together with the proposed realignment of Hutchins Street in the Napert Village area, traffic patterns throughout the City can be improved.

In December, the City selected Anderson-Nichols of Concord as its choice to prepare final plans and detail drawings of a new sewerage treatment plant and separate sanitary sewerage collection system. Upon approval by the State of our selection, work will begin immediately to prepare the drawings and documents. However, dependent upon the timing of the State's approval, the project may be delayed. Federal funding assistance. City and Brown Company efforts in water and air pollution abatement will result in a substantial restoration of environmental quality in Berlin and the entire Androscoggin River Valley. Berlin's location in one of the most spectacularly beautiful natural sites in America is an invaluable community asset which must be restored and protected in the future.

Another natural asset which received substantial attention in 1973 was Berlin's water supply. A lengthy effort to prepare plans, documents and an environmental impact statement resulted in the filing of an application with the Federal Government. In light of the hard work put into this application by Ernest Tankard, engineer for the Berlin Water Authority, and the excellent assistance received from Economic Development Authority personnel, I am confident that the sought after grant will be received and that bids for the new water treatment plant can be let in 1974.

Nineteen Hundred and seventy-three saw improvements at the Berlin Airport

and a promise of more to come. A new full time fixed base operator was employed to keep airport operations functioning year round. Quality mechanical work is now available for aircraft and two grades of aviation fuel are now available. New installed equipment and facilities were added in 1973. A Public Works Impact Program, a \$80,000 capital improvement program at the airport.

A grant from the New Hampshire/Vermont Development Council along with matching City Funds will allow improvements to the landing area, taxi ways, hangars and administrations building.

Nineteen Hundred and seventy-three saw the first full year's operation of the City ambulance service by the Police Department. The Department's response to this additional work load has been outstanding and almost everyone has expressed satisfaction with the service. The anticipated purchase of a new primary ambulance vehicle in 1974 should even further improve the Department's ability to provide this vital emergency service.

Through the use of General Revenue Sharing Funds, the Fire Department was able to purchase a new eight-five foot aerial ladder truck and accessories in 1973. The new truck expands the Fire Department's fire fighting and rescue capabilities. Also, the Fire Department in cooperation with the Building Inspection Division of the Home Owners Department expanded their fire inspections services in 1973 to assist the many homeowners who were making changes to their heating systems in response to the energy shortage.

Nineteen Hundred and seventy-three was a busy year for the Health Department. Many building starts, including the new Liberty Garden's Housing Project and research on proposed revisions to the City's building and zoning codes kept the Building Divisions very busy. The Division looks forward to working with the Planning Commission and City Council to make needed revisions to local building and zoning codes after their reappraisal of existing codes is completed in early 1974.

Expanding case loads and new services have also kept the medical staff busy at the Health Department. A general disease clinic was one of the important new programs started by the Health Department in 1973.

While 1973 was a year of advancement for the municipality, it was also the year in which the "energy shortage" began to affect city government. Shortages of heating oil and gasoline forced adjustments in office hours, elimination of lighting for nighttime outdoor recreation programs and curtailment of sidewalk plowing and snow removal. Fortunately, a mild and dry winter minimized the affects of these curtailments and most of our residents realized that the shortages were beyond our control. Since oil and gasoline supplies remain uncertain in 1974, we have begun to re-examine the concept of "necessary" services in light of available resources. This is one area in which citizen participation is needed and it is hoped that a consensus will be reached early in 1974.

Nineteen Hundred and seventy-three also saw the retirement of two long-time public servants from positions as heads of important departments in Berlin city government. Clarence Brungot who served the citizens of Berlin for twenty-one years, retired from the demanding position of City Engineer. Almost every public building and street in the City bear his mark. It is doubtful that Clarence will ever be able to sit through a snowstorm without anticipating his telephone beginning to ring carrying the messages of troubled citizens. And at the end of 1973, after seventeen years of service to the children and adults of Berlin as Recreation Director. Without a doubt, Bob has been "Mr. Recreation" in Berlin.

These retirements mean that there will be some new faces at City Hall in 1974. We look forward to selecting the city's first full-time Community Development Director as well as filling the positions open due to retirements. The Community Development Director will assist the Industrial Development Committee and the Planning Commission in their important work of promoting and planning for the future growth of the City. Nineteen Hundred and seventy-three can best be described as a year of beginnings. I take great satisfaction in having been able to assist and help to coordinate the activities of the many community leaders whose hard work resulted in these beginnings and I look forward to working with the Mayor, Members of City Council, Heads of City Departments and all of the residents of Berlin to move forward from these beginnings in 1974.

Respectfully submitted,
JAMES C. SMITH
City Manager

FINANCE

The following is the report of the Finance Department for the year ended January 31, 1974.

Maintained complete accounting records of the City of Berlin General Fund, Revenue Sharing Fund, School Building Fund, Parking Meter Fund, Public Improvement Fund, Sewer Fund, Bridge Fund, and the Berlin Airport Authority. This Office also maintained complete accounting records for various Government Projects.

Assisted the City Manager in the preparation of budget, preparation of bids or quotations on major purchases, and the issuing of purchase orders.

Completed financial surveys for State and Federal Governments.

Prepared financial reports for Mayor & City Council, City Manager, and the City Treasurer.

Kept records and processed insurance claims for Workmen's Compensation, Group Insurance, Liability Insurance, and Medical Insurance.

Processed applications for Medical Insurance and Group Insurance and prepared monthly statement of same.

Kept records and processed centralized purchasing such as gas, oil, postage and supplies for various city departments.

Additionally, the staff maintained records and published reports for the Industrial Development Committee, the Planning Board, and the Electric Utility Commission.

Respectfully submitted,
Aline Boucher
 (Mrs) Aline Boucher
 City Comptroller

CITY CLERK

I herewith submit my report as City Clerk for the year ending February 1, 1973.

During the year 1973, the office of the City Clerk filed and indexed 503 Financing Statements, processed 132 Termination Statements.

Issued and recorded 158 marriage licenses, 213 births and 164 deaths.

Registered 8,930 vehicles which included automobiles, trucks, trailers, etc.

Copies of all vital statistics were forwarded to the Department of Vital Statistics at Concord, and copies of all birth certificates were prepared for the parents.

The City Clerk also acts as clerk of the City Council, recording minutes of each meeting, public hearings, files all communications, petitions, reports, etc. Handles sale of cemetery lots and records cemetery deeds, issues orders for grave diggings, prepares ballots and warrants for municipal and other elections, and acts as agent for the Fish and Game Department.

In addition to the above functions the City Clerk also acts as booking agent for the municipal halls which are rented for weddings, anniversaries, showers and benefit parties.

VITAL STATISTICS

The following tabulation shows the listings of Marriages, Births, Deaths as recorded during the past five years.

	1969	1970	1971	1972	1973
Births	275	236	253	217	213
Marriages	153	160	150	167	158
Deaths	186	190	176	160	164

Respectfully submitted,
 ROSA JUTRAS, City Clerk

WELFARE

In accordance with the State of New Hampshire Welfare Laws, all persons who appealed to this Department were either aided, counseled or referred to another agency or to a Federal Program whichever might be the most helpful to the person's needs.

The following were aided by this Department during the past year:

Direct Relief: 58 families with 235 individuals, 20 singles.

Soldier's Aid: 29 families with 119 individuals, 8 singles.

Board and Care of Children: 6 cases.

Old Age Assistance Cases: 154.

Alien Old Age Assistance Cases: 12

Aid to Permanently and Totally Disabled: 45 cases.

For a TOTAL OF 332 CASES and 599 INDIVIDUALS.
PERSONS TO OFFICE: 2916.

Respectfully submitted,

MAURICE A. BELANGER

Overseer of Public Welfare

DISTRICT COURT

Jean L. Blais — Justice

George H. Krough — Special Justice

Lucien A. Fortier — Clerk

The Berlin District Court consists of the City of Berlin and the Towns of Milan, Dummer and the unincorporated places of Cambridge and Success.

Regular sessions are held at 9:00 A.M., five days a week in the District Court Room over the Police Station on Green Street.

LUCIEN A. FORTIER

Clerk

CIVIL DEFENSE

There has been a change in the government level on the title for our program. It is now called "Defense Civil Preparedness Agency." Our local unit is still participating in the P&A Program which reimburses (50%) for our office expenses. The Federal Surplus Property program is still made available to the municipal departments. This program provides savings on items and heavy-duty equipment needed by the local Civil Defense units.

The director attended a two-day seminar for a briefing on Emergency Operations Planning. The meeting was held at the University of New Hampshire. Arrangements were discussed during 1973 to have a training course of instruction designed for community officials and key employees to develop an understanding of a method of conducting government operations in any major disaster which requires the use of an Emergency Operations Center. This workshop is being scheduled for sometime in November-December, 1974. Details will be given to all municipal department heads who are to attend these sessions under the instruction of Kenneth Fields of the University of New Hampshire Division of Continuing Education.

The Auxiliary Police Unit members are continuing to receive training in police procedures and target-practice. They are also assisting the regular police in traffic-control whenever needed.

The survey to re-establish our Emergency Operation Center elsewhere has not been completed as yet.

ROMA E. BRISSON, Director

BERLIN HOUSING AUTHORITY

Urban Renewal

In June, the Authority unceded the Cole Street Urban Renewal Plan to allow the construction of transient housing facilities on urban renewal parcel C-2. This action was taken after the Authority was approached by a private party whose development proposed for C-2 envisioned construction of multi-story motor inn. Approximately 2 acres in size, C-2 Pleasant Street frontage of 384 feet. Amendment of the Urban Renewal Plan was approved by the Planning Board and the City Council. The latter body, in December, acted to change the zoning classification of C-2 from flood plain to business general. At this writing, negotiations with the prospective motor-inn developer are continuing.

Site improvement work accomplished under contract during 1973 included the resurfacing of Pleasant and Green Streets, the improvement of parcel C-2 (grading, loaming and seeding work), and the installation of granite curbing, sidewalk and street lights on Pleasant Street at parcel C-2. The northeastern section of C-2 has been opened for public parking pending development of the parcel.

Work planned by the Authority in 1974 includes installation of the Dead River park. A drawing showing this planned improvement and its location is attached to this report. The decision to not further postpone development of this park pending accomplishment of the Dead River channel improvement work proposed by the City and the United States Department of Agriculture was made in late 1973 when it became apparent that there was virtually no chance of the channel work being started in fiscal 1974 or soon thereafter. When completed, the park will be dedicated to the City.

Still under study at year's end was the design of new Granite Street. Alternatives under consideration include construction of new Granite Street as 1, the initial segment of a downtown by-pass road (as shown in the City's General Plan), or 2, a connector street not designed to be the initial segment of a downtown by-pass, or 3, a service road. Under the third alternative, new Granite Street would provide vehicular access to the Authority's Parkside Apartments complex from Green Street but would not cross the Dead River to connect from Green and York Streets as it would under the two alternatives first mentioned. The design study of new Granite Street is being coordinated with the Berlin Study of New Hampshire Route 110 and New Hampshire Route 16 connections. Both studies are being made for the New Hampshire Department of Public Works and Highways by Haynes Engineering Consultant of Concord and are expected to be completed not later than May 1, 1974.

Public Housing

During 1973, there was a change in occupancy in less than 15% of the public housing units managed by the Authority. At year's end there were close to 70 applicants on the waiting list and the average monthly rent being collected from the Authority's tenants was less than \$46.00. Included in the monthly rent are heat, hot water and electricity.

Authority Board

Mr. Romeo Boulanger was reappointed to the Authority in January. He has been a member of the Authority since 1969.

Pertinent information concerning the elementary schools:

Some numbers that might be of interest

1. Enrollment on September 8, 1973 - 1050

2. There are forty sections and grades

3. Average size for grade one is twenty-two

4. Average size for grades 2-6 is twenty-three

Physical make-up

1. Self contained classes

2. Three neighborhood schools

3. Grades five and six attend a middle school

4. 75% of the children walk to school

5. Four kindergartens: each has a morning and an afternoon session or eight sections in all

6. There is one special class for young educationally handicapped children. The older elementary educationally handicapped are in regular classrooms and receive tutoring on a one to one basis each day.

7. Classes are heterogeneous

NO SCHOOL DAYS

The procedure for announcing no-school days remains unchanged and is here listed: When the weather is bad and school is in attendance, parents are urged to use their own judgment concerning sending their children to school. The local radio stations will be used for important school notices.

PUBLIC WORKS DEPARTMENT

New equipment purchased this past year included: 1 Panel Truck, 1 Utility Truck, 1 Compressor, Trailer Mounted, 1 Pick-Up Truck.

The clearing of the right of way to the Jericho Brook Recreation Area was started this past fall, and we hope to complete it by the end of February, 1974.

Retaining walls were built on the following streets: Crafton St., Denmark St., Clark St.

Temporary repairs were made to the East Mason Street Bridge this past fall because of salt damage, and we hope to complete the work this summer.

The spring and fall clean-up weeks were carried out again this year with approximately 250 loads of trash taken to the dump.

As in the past, many signs were repaired or replaced, and new signs installed where needed.

The usual garbage removal was carried out during the year. Fifty-two catch basins were repaired or installed, and twelve new man-holes on sewers were built during the year.

New sewers were installed on the following streets or parts of streets:

Berwick Street	Hillsboro Street
Dustin Street	Hillside Avenue
Enman Hill	Petrograd Street
Western Avenue	Howard Street
Denmark Street	

The city garage was kept busy remodeling equipment, and caring for equipment for several of the City Departments.

The usual cemetery work was done during the year.

The Sanitary Land Fill was moved to it's new location on East Milan Road, along with the tractor shed.

Sidewalk repairs and construction were carried out on many streets.

Several streets were sealed with hot asphalt and stone chips with the aid of Bell and Flynn Contractors of Exeter, N. H. They are as follows:

Second Avenue	10,850 Sq. Yds.	Third Avenue	3,750 Sq. Yds.
Hamlin Street	1,267 Sq. Yds.	Petrograd Street	2,533 Sq. Yds.
Charron Avenue	2,367 Sq. Yds.	Fourth Avenue	5,278 Sq. Yds.
Hinckley Street	711 Sq. Yds.	Fifth Avenue	5,236 Sq. Yds.
Livemore Street	2,280 Sq. Yds.	Portland Street	5,278 Sq. Yds.
Myra Street	778 Sq. Yds.	Finland Street	2,667 Sq. Yds.
Denmark Street	8,022 Sq. Yds.	Sweden Street	2,829 Sq. Yds.
Twelfth Street	600 Sq. Yds.	Chalet Road	3,400 Sq. Yds.
Hutchins Hill	2,956 Sq. Yds.	Boehle Street	860 Sq. Yds.
Jolbert Street	778 Sq. Yds.	Wood Street	2,153 Sq. Yds.
Bemis Street	2,800 Sq. Yds.	Argonne Street	3,400 Sq. Yds.
Franklin Street	3,400 Sq. Yds.	Alamo Street	1,100 Sq. Yds.
Trudel Street	3,749 Sq. Yds.	Crafton Street	5,911 Sq. Yds.
Enman Hill Road	5,822 Sq. Yds.	Beardoin Street	3,778 Sq. Yds.
Hillsboro Street	8,489 Sq. Yds.	Burgess Street	4,433 Sq. Yds.
Goelth Street	733 Sq. Yds.	Watson Street	2,133 Sq. Yds.
Coach Street	567 Sq. Yds.	Clark Street	3,167 Sq. Yds.
Shopard Street	2,533 Sq. Yds.	Laurel Street	2,533 Sq. Yds.
First Avenue	6,756 Sq. Yds.	Hill Street	4,000 Sq. Yds.
Haskell Street	2,000 Sq. Yds.	Mt. Forist St.	1,393 Sq. Yds.
Saint Joseph	944 Sq. Yds.		

Total: 137,234 Sq. Yds.

Several other streets were sealed with hot asphalt concrete under contract with L. M. Pike of Gorham. They are as follows:

Main Street, Glen Avenue, Winter St., Wight St., State St., Pine St., Crafton St.

REPORT OF BERLIN WATER WORKS

The Water Department is beginning the third year in its effort to obtain a government grant towards the construction of a filter plant in the Thompson Field area formerly owned by Brown Company.

The area is adjacent to the east bank of the Androscoggin River just north of the city and consists of 85 acres of which are reserved for the construction of a filter plant. The balance is intended for the construction of a sewage treatment plant and for streets and sidewalks for industry together with proposed water and sewer lines into the area.

The project will also include about five miles of 20-inch, 16-inch and 12-inch cast iron water pipe, a twenty-inch and sixteen-inch pipe will begin at the Filla Plant and extend southwesterly to Highway 12, a 12-inch water main will connect with the existing main line on the west side of the City. Another 12-inch water main will connect with the Androscoggin River at the filter plant, the plant will be designed to eventually pump four million gallons per day. The piping layout is designed to provide water also for the towns of Gorham and Milan if the occasion should arise.

At the present time only part of the water supplying the City is filtered. Upon completion of this proposed filter plant the Success non-filtered water system will be eliminated thereby supplying a 100 percent filtered water supply to the City.

The City Government and Federal agencies have been cooperative and we expect final approval this spring.

AMMONOOSUC WATER SUPPLY

This water system operates in conjunction with the present Success water supply. However, the Ammonoosuc water is filtered through a battery of filters and is delivered to the city one quarter mile southwest from Route 110 and five miles easterly from the Coombs Road. Two-thirds of the present city water supply comes through the Ammonoosuc filtering system. The only chemical treatment given this supply at present is chlorination and fluoridation. The plant was put into operation in 1941. At the present time the plant is operating at a capacity of 10 million gallons per day. The filtering media, some of which has been in use for 40 years. The engineering firm of Duffreese and Henry are presently preparing plans for complete chemical treatment for this supply.

For information regarding operations of the Department we refer you to our Superintendent's Report and for financial standing to the Auditor's Report.

Board of Water Commissioners:

SYLVIO J. CROTEAU, Mayor, Member Ex-Officio
 ROBERT A. GAGLIOSO, Chairman of the Water Board
 RICHARD GUNN, Clerk of the Board
 EDWARD MURPHY, Commissioner
 ELI ISAACSON, Commissioner

BERLIN WATER WORKS REPORT (Cont.)

SUPERINTENDENT'S REPORT

Water consumption has increased from 190 gallons per capita in 1972 to 207 in 1973. Actual consumption as figured by families on meters, shows a usage of from 40 to 60 gallons per capita. The balance of 147 gallons was consumed by manufacturing and commercial users. Our four Venturi meters register 1,217,832,460 gallons for the year or 3.3 million gallons per day.

Rainfall this year in the Godfrey dam area on our 20 square mile watershed was 57.7 inches. The average rainfall in the city is 36 inches per year. This is the third year of above average rainfall. Consequently an excessive rainfall of this magnitude results in high color in water quality. Consequently our customers. Further it requires additional chlorine treatment.

Chlorine used for purification purposes this year amounted to 9,000 pounds, 900 pounds more than was used in 1972. The average chlorine residual 9,032 pounds of chlorine was used in the water 2,380 pounds more than last year. Cost of water purification this year amounted to \$23,463.79.

Wages and salaries increased again this year by about 8 percent. Materials increased from 25 to 30 percent. However, the water rate increase put into effect in July 1972 of 25 percent provided sufficient funds, which improvement work was done during this year. Larger mains replaced, 11 1/2 inch water main replaced, 11 1/2 inch water main replaced, 11 1/2 inch water main replaced, sufficient size thereby rendering better water service. Replacement of old house service lines was also included in the work. Forty-six old house-service lines were replaced at department expense. Twenty new service connections were also added. The total number of services now on record is 4,000.

Your department has been unusually busy this year. One half mile of small water mains were replaced with larger cast iron water pipes and forty-six house-service pipes removed from the main line to the property line at a cost of \$32,000.

We were fortunate in obtaining ten boys from the Youth Corps during the year. These boys worked most of the summer cutting trees and brushing out ten miles of our woods pipe lines, covering bare places along the pipe lines, burning brush and working around the reservoirs. The boys were paid from Youth Corps funds while we furnished tools and supervision.

PROPOSED PLANT SITE

In preparation for our proposed new Filter Plant the allotted 15 acres was surveyed by the department. Notes on necessary elevations, contours and earth borings were turned over to Duffresne and Henry Consultants for approval and incorporated in the final E.D.A. application.

PROPOSED RIVER CROSSING AT FILTER PLANT

Androscoggin River soundings were made through the ice in the month of March 1973 for a possible 12-inch water main to extend from the present water main on Route 16 and across present land owned by the Vocational and Technical school. The line will then cross the river and extend into the proposed filter plant area, thence northerly into the industrial lot now owned by the City, (formerly the Thompson Farm). The purpose of the line will be to furnish immediate water to the industrial area.

Another river crossing is under consideration to cross under the proposed new 12th Street bridge now under construction. The pipe will be suspended under the structure and connect to the existing mains between Main Street and Hutchins Street.

LIBERTY GARDENS

This is a new housing development which started construction in the late summer. The project consists of an entirely new development area located north of Liberty Park adjacent to Bean Brook. One half mile of streets and thirteen buildings are now under construction. When completed the development will have 120 apartments, recreation building and other facilities. Three thousand feet of main line water pipes and several fire hydrants will be installed in the area.

We hope to continue again next year the replacing of several old water lines presently requiring excessive repairs and inconvenience — namely on Upper Grafton Street, Bridge Street, Fifth Avenue and Willard Street. About 40 new service pipes will also be included in the work. Several new fire hydrants will also be installed in Halvorson Terrace.

FINANCIAL

All monies to be used in this improvement and expansion work will hopefully come from water sales income continuing our non-profit practice of using all excess funds above operating expenses to improve and expand water services to the City.

We are pleased to state that of a committed income on water sales of \$560,372.27, only \$294.10 remains to be collected.

In closing, I wish to thank the employees for their fine support in performing the many phases of operations in our department. I also want to thank other City Departments for their fine cooperation.

ERNEST E. TANKARD, Superintendent and Engineer

The City That Trees Built

Oliver A. Morrissey
Certified Public Accountant

re: *City of Berlin, New Hampshire*
 603-752-4411

ACCOUNTANT'S OPINION

The Honorable Silvio Cresto, Mayor
 Members of the City Council
 City of Berlin, New Hampshire

We have examined the balance sheets of the various funds of the City of Berlin, New Hampshire as at January 31, 1974 and the related statements of operations and changes in fund balances for the year then ended. We have also examined the accounting records and supporting documents with generally accepted auditing standards, and included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

In our opinion, the aforementioned financial statements present fairly the financial position of the various funds of the City of Berlin, New Hampshire at January 31, 1974 and the results of operations and changes in fund balances for the year then ended, and the City's compliance with the provisions of the law applicable to governmental entities, applied on a basis consistent with that of the preceding fiscal year.
